Boys' Industrial School.

One of the most important public institutions in the State of Ohio is the Boys Industrial School located at Lancaster, being a correctional and educational institution. It has an average of nearly nine hundred lads between the ages of eight and eighteen years, and its objects and purposes are to bring them up as good men.

With this end in view a movement is on foot to supply a library, adequate to the needs of these growing minds, and Mr. Malcolm Jennings, a former member of the Board of Trustees of the Institution, has taken charge of the matter. Mr. Jennings earnestly invites all people who have spare books and magazines, bound or unbound, to send them to Hon. C. D. Hilles, Superintendent of the School, at Lancaster. Good application will be made of them, and the gift will be appreciated in full measure.

New Business Block to be Erected.

Messrs. Wm. S. Gracey and J. Payson Bradley, of Boston, have let the contract for the erection of a fine new building at the corner of Third and Marion streets.

The building is to be a fine brick structure with combination flat and store rooms. The cost of the structure is to be \$5,000 and the work is to be completed by spring. The plans were drawn by Architect E. C. S. Holmboe, and the contract was let to H. W. Clark.

Some time next year the entire corner will be improved and another business block containing twelve apartments and four store rooms will be added. When these buildings shall have been erected they will reflect credit both to their builders and to the city.

Martha Danker.

Miss Martha Danker died Monday night at 11:30 from asthma at the home of her sister, Mrs. John Mahinken, 622 Fifth street. She was 43 years of age.

The funeral will take place from the house this afternoon at 1:30. Burial at Mount Cemetery.

Headache for Forty Years.

For forty years I suffered from sick headache. A year ago I began using Celery King. The result was gratifying and surprising, my headaches leaving at once. The headaches used to return every seventh day, but thanks to Celery King I have had but one headache in the last eleven months. I know that what cured me will help others. Mrs. John D. Van Keuren, Sagittaria, N. Y.

Celery King cures Constipation and Nerve, Stomach, Liver and Kidney Diseases.

SHOWERS OF MONEY.

Veritable "Monte Cristo" and His Generosity to Bell Boys.

Boston Banker Scatters Silver Coins Among Employees at Waldorf-Astoria, and Enjoys the Scramble Which Follows.

With tear-dimmed eyes the bell boys in the Waldorf-Astoria hotel watched the departure of R. S. Blodgett, a banker of Boston, the other day. Because of his lavish distribution of money among them they regarded him as a veritable "Monte Cristo." Hardly a night passed during the last two weeks that he did not scatter from five to twenty dollars in the main corridor for the boys to scramble for. Usually Mr. Blodgett waited until 11 o'clock at night, when the hotel corridors were filled with fashionably dressed men and women. He would then change a bill of large denomination into dimes and quarters and wait his opportunity. The boys were always on the alert, but Mr. Blodgett wanted what stage managers call "a situation."

When a crowd gathered in front of the office Mr. Blodgett, standing at the thirty-fourth street entrance, would hurl a few dollars in dimes along the floor toward the reading room. The effect upon the 20 bell boys lined up on the leather covered bench was electrical. With a mad rush they scrambled for the elusive coins as they rolled about on the tiled floor. For a few minutes the dignity of the place was upset and men and women, not realizing the cause of the commotion, fled in consternation to the palm garden and surrounding rooms.

Sometimes while the boys were battling for the dimes and quarters Mr. Blodgett would shower another handful upon them, which served to spur them to renewed efforts. To vary the programme Mr. Blodgett occasionally closed the door leading to the reading room and dashed the coins against it. Mr. Blodgett is very fond of boys, and he scattered the money with such impartiality that all had an equal chance to get a fair share of it. He distributed in this way about \$200.

LONG-LOST CHILD FOUND.

Mysterious Kidnapping Case of Twenty Years Ends Satisfactorily.

The "lost babe" mystery that has agitated the vicinity of Kokomo, Ind., for 20 years has been solved. Twenty years ago Martin Chism of the eastern part of the county, lost his wife by death, and an infant daughter was left temporarily with its grandparents. While in their charge the baby disappeared on a dark, stormy night, and though a thorough and systematic search was kept up for months, in which the entire neighborhood joined, no tidings were obtained, and after years of anxious search the distracted father gave up the child as dead. Later the grandparents moved to Missouri. A month ago a letter came to the Kokomo postmaster from Mrs. Fannie McClelland, of a small and remote town in Missouri, asking him if any person named Chism resided here. The writer was the lost baby, who in some manner had learned that she had been abducted and that her father's name was Chism. The father, who still resides here, answered the letter with some misgivings, but a return message came the other day setting all doubts. Mrs. McClelland also came herself, and the meeting of the long-separated father and child was a joyous one. She does not know who did the kidnapping and it was only by accident that she discovered her relatives.

A SOCIAL MUSEUM.

Most Interesting Exhibits to be Brought from Paris and Placed Permanently at New York.

Representing the League for Social Service at the Paris exposition, Dr. W. H. Tolman is superintending the shipping of economic and industrial exhibits of France, Russia, Roumania, Italy and Germany, which have been promised to him by the representatives of those countries and which with the American exhibit that he will bring back with him he intends to make the nucleus of a museum of social economy in New York city, to be conducted along lines similar to those of the Commercial museum of Philadelphia. The collection will consist chiefly of models, photographs and monographs by experts. The exhibit from this country received the grand prix, the highest award.

The establishment of a social museum in New York city, it is thought, will be of national benefit, as students, architects and municipal officers can find in it suggestions for all sorts of practical improvements in dwellings and manner of living.

Not as Bad as Might Be.

The Vanderbilt boys keep on getting their names in the papers, first by taking up the work where father left off, next by getting shaved in Connecticut on Sunday and again by refusing to accept the prize won in a yacht race. Well, patiently sighs the Chicago Times-Herald, these things are better than social scandals, anyway.

Appreciated Them.

A New York man has been arrested for stealing 20 bicycles from as many friends. This, says the Buffalo Express, shows the value of friends.

Not Popular with American Brides. In Japan it is customary for the bride to give all her wedding presents to her parents.

GETTING TO BE GOOD INDIANS.

Gen. Merriam Makes Encouraging Report of the Progress Made by the Apaches.

There were no Indian troubles in the department of the Colorado last year, according to Gen. Merriam, and the only difficulties between white men and Indians were individual, arising from cards and whisky. The white men, says the general, were the aggressors.

In the course of his annual report, Gen. Merriam states the disposition of his troops, and says:

"It will be observed that nearly all of the posts are placed on or in the immediate vicinity of large reservations. The exceptions, Forts Douglas, D. A. Russell and Logan, are at important railroad centers, rendering their garrisons quickly available for emergencies in any direction."

The general speaks with commendation of the excellent progress being made toward civilization by the Apaches under the management of Capt. Nicholson, Seventh cavalry. He says:

"I found them largely and successfully engaged in agriculture, and saw large numbers of men, as well as women, at work in the fields, most unusual for Indians. I was also told by railroad officials that they could not employ better men for railroad labor than these Apache Indians. In view of these facts, and of the assurance by Capt. Nicholson of the absolute loyalty and efficiency of his Indian police, I recommended the withdrawal of all the troops from San Carlos agency, instead of repairing that post."

THE NEW NAVY.

Progress Made in the Construction of Uncle Sam's Battleships, Protected Cruisers and Monitors.

Admiral Hiebhorn, chief of the bureau of construction and repair, has made public a statement showing the progress of the work on vessels now under construction for the navy.

Of the big battleships, the Maine and the Ohio stand respectively at 36 and 30 per cent. of completion. The Missouri, at Newport News, stands 15 per cent., and the Illinois, also building at Newport News, is set down at 85 per cent.

Work is progressing satisfactorily on the six new sheathed protected cruisers, although they are all in the first stages of construction. The monitors Arkansas, Florida, Wyoming, and Monitor No. 8 (the latter as yet unnamed) are each about half finished. The 16 torpedo boat destroyers, as well as the 16 torpedo boats, are for the greater part in the last stages of their construction. Of the submarine torpedo boats the Plunger stands at 85 per cent. and, of the remaining six, the Acher, Moccasin, Porpoise and Shark, are set down at six per cent., while work has not yet begun on the Pike and the Grampus.

HOME FOR BACHELOR GIRLS.

Modern Building to be Put Up in London by United States Millionaires.

The London Daily Express says a syndicate of New York and Philadelphia millionaires, including Russell Sage, James J. Hill, and Mrs. Hetty Green, is about to build a great hotel here for bachelor girls. The architect who has charge of the designs has sailed for America and says he has an option on property close to where the new Yerkes underground railroad will cross the present tube. The building will be as high as the law allows. It will be lighted with electricity and heated by steam. There will also be a Turkish bath establishment, and the charges will be very moderate. There will be sufficient reception-rooms to allow of private conferences with male relatives and sweethearts. The promoters simply seek, so they say, a five per cent. return on their investment.

CANNOT NATURALIZE NEGROES

Ruling of United States Court Declares Federal Law Admits White Males Only.

Judge Kirkpatrick, in the United States court of Trenton, N. J., refused naturalization papers to Robert Spaulding (colored), a native of Dutch Guiana. The papers were refused on the ground that the federal laws permit the naturalization of white males only. Spaulding is a graduate of Howard university, Washington, D. C., and is now a student at Princeton university, and had expected to take up the study of law. His inability to become naturalized will prevent his admission to the bar. Spaulding said he would appeal the case to Attorney General Griggs. A decision similar to that rendered by Judge Kirkpatrick was given in the state courts in the case of a colored man who was born in Nova Scotia.

American Buys Tiffany Brooch.

Simmons, the millionaire hardware dealer of St. Louis, has bought the famous Tiffany pearl and emerald brooch, for which the shah of Persia is said to have made a fabulous offer. Mr. Tiffany declined to tell what Mr. Simmons paid, saying that it is absolutely against the regulations of the firm to reveal anything about purchases of jewelry.

The brooch is unique, first because of the extraordinary workmanship, but mainly because every precious stone has belonged to some historical crowned head of England or France. One pearl once adorned a ring worn by Marie Antoinette.

The hardware merchant intends the brooch for a wedding gift for his daughter.

A Great Record.

Hard to Duplicate it in Marietta.

Scores of representative citizens of Marietta are testifying to the following subject. Such a record of local endorsement is unequalled in modern times. This public statement made by a citizen is but one of the many that have preceded it and the hundreds that will follow. Read it:

Mrs. E. M. Johnson, of 611 Warren street, says: "From the good reports of Doan's Kidney Pills from all who have used them it seems as if they must give universal satisfaction. Mr. Johnson prepared a supply at W. H. Styer's drug store, 240 Front street, and from the results he obtained from the treatment he speaks of the remedy in terms of the highest praise. I know others who have also used Doan's Kidney Pills with equally satisfactory results."

RUBE BAND.

There are many imitations of Mr. J. C. Lewis' novel and unique method of heralding the event of Si Plunkard in each city he appears, but he presents the only burlesque farmer street parade which is well worth going miles to see. This novel parade will be seen here this afternoon at 2:30 p. m., and it is funnier than a circus.

SI PLUNKARD AT THE AUDITORIUM TONIGHT.

A RAGTIME RECEPTION.

This merry and amusing comedy with its large company of brilliant players will be the attraction at the Auditorium Saturday night, Nov. 10. "A Ragtime Reception" is a bright, happy musical melody, written upon the subject of the hour, replete in brilliant comedy lines and amusing situations. Incidental to the play, many new, original and unique specialties are introduced by the principal members of the company, which occur in a natural manner. The management have shaken off the dust of the ordinary farces, and have swept out all the old conventional moss covered ideas, presenting a legitimate comedy, a faultless fantasy of fantastic fancy, together with a chorus of pretty girls, handsomely costumed and a perfectly staged production, even to the smallest detail, carrying all the scenery needed while his unusual in farce comedies.
